## *Student Success Synergy*

A website that comprises all the information/ resources a student might need to live his/her college years to the fullest. Through the efficient use of technology, we will transform the access to resources for students.

### **Vision**

Providing a tool or service that empowers other people to deploy their creativity & focus on building something innovative that would make a difference in our society for good. Imagine a college student doing all this & making efforts to make “THE INDIAN DREAM” come true.

### **Mission**

To make an effort to organize a student's academic life in terms of providing all the resources like notes & etc. Adding on, ensuring that any opportunity whether it is an Internship or a college competition is timely sent to them.

## **Website Details**

1. The website will be a one-stop solution to all the problems that a college generally faces while studying for their exams as well as not being able to properly optimize the opportunities they get in hand.

2. Adding various features like:-

### **(1) Updated Syllabus for every semester**

Problem- The concept would be that every year IPU decides to add a few topics or either cut down one or a few but the faculty not being able to provide proper clarity on the topics that are coming in the exams leads to distress among students near exam times.

Solution- On the website, we would showcase the updated syllabus but also highlight the topics that have been newly added and inform students about those topics that have been cut out.

### **(2) Updated Notes on all domain subjects offered by IPU**

Problem- Many students don't take notes while being taught by the faculty & then depend on sources like YouTube or ChatGPT that provide inaccurate answers to the concept. No proper structured source of notes.

Solution- Providing students notes that are updated regularly with the guidance of the college faculty that will include all the important topics that need to be learned by a student to score well in their respective exams.

### **(3) Past Year Exam Papers & Analysis**

Problem- Whenever a student wants to practice or test his/her knowledge about the concepts they learned, they would solve past year exam questions but for many students that's not very accessible.

Solution- Provide them a digital copy of the past year's exam papers including both Externals & Internals. As well as Give them an Analysis of all the exam papers that would guide them in understanding what topics are important & what should be the ideal answer for them.

### **(4) Datesheet Notification- Externals**

### **(5) Yearly Calendar**

### **(6) Multiple Whatsapp Group- IPU & Individual College Groups**

Problem- There is a lack of inter-college student communication & many students stay unaware of any ongoing events/competitions held by their college or in other colleges as well.

Solution- By creating a group, where all colleges affiliated with IPU are present & as well as individual college groups are also created.

- Firstly, any event organized by one college club can spread and promote their event to other colleges plus attract more participants for the event that is being held.
- Secondly, students now have an opportunity to expand their network beyond their college boundaries. Every student studying at IPU can get a chance to connect with one another & hopefully collaborate in building something big.

### **(7) Explaining IPU Notices in 60 words**

Problem- IPU releases so many important notices that are very necessary for every student to read but due to the length of the notice, many students need to try to make an effort to read it but they just don't.

Solution- The aim is to deliver the exact message without altering the meaning of the notice but in just 60 words.

## **(8) Internship Opportunities & Resume Building**

Problems- The biggest issue for a student nowadays is that they are not able to find paid internships but if a student still manages to find one, the problem doesn't end because their blank resume speaks differently. So, they simply give up because a sheet of paper doesn't prove them valuable.

Solutions- Helping students build a resume & teaching them how to properly write their work experience adding to this, if a student doesn't have any work experience then a different approach would be taken by us to write their resume. Coming onto the internship part, we would only be showcasing companies that are promising a stipend for their internship.

# **Website Creation Strategy**

## ***Phase 1***

1. Gather notes on all courses offered by IPU.
2. Gather past year exam papers on all courses of Internals & Externals Examination. Also the syllabus.
3. A website would then be created consisting of all this information.

## ***Phase 2***

1. Upload the External Examination Date sheet of all the courses.
2. Also, upload the Yearly calendar provided by IPU.

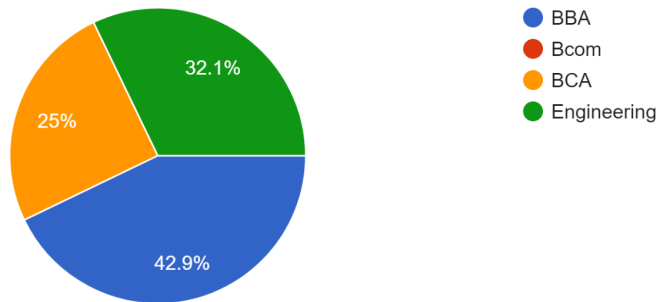

## ***Phase 3***

1. Add the joining link to our WhatsApp group on the website as well as create a system to also promote events on our website.
2. Create a system for newsletters. Explaining our IPU notices as well as the notices will be showcased on the website as well.

Course Pursuing?

28 responses

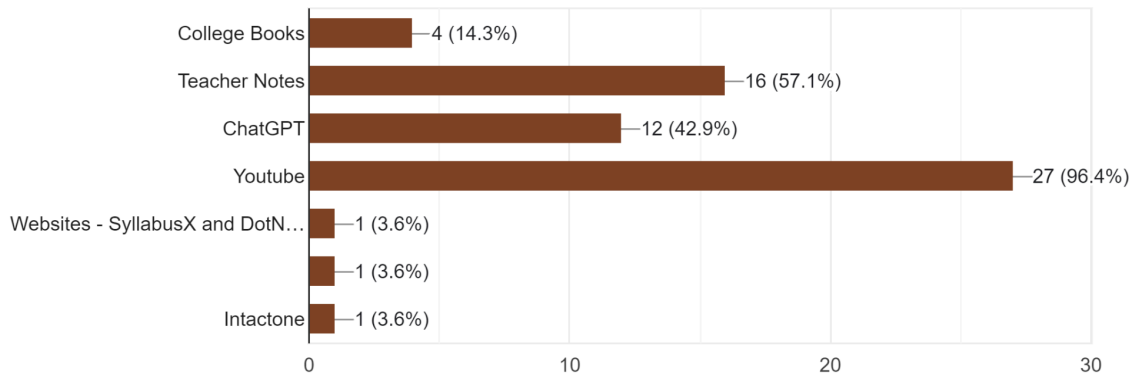

Which year are you in?

28 responses

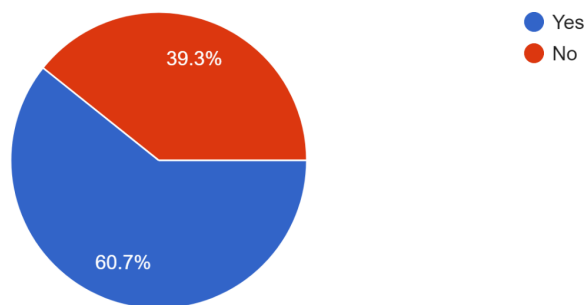

What sources do you use the most to study for your exams? (Select only 2 options). It would be great if you could share any useful website that you...uding. Kindly type the name of it in others option.

28 responses

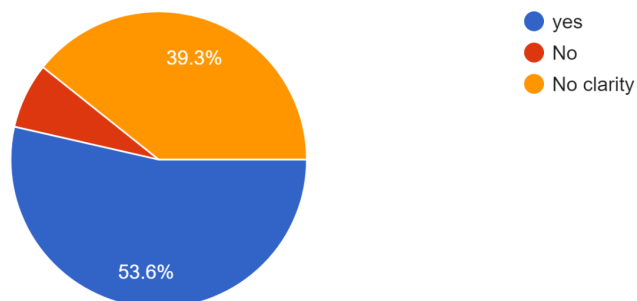

Do you face any issue in finding the appropriate notes to study for your exams?

28 responses

Does the faculty provide you with the syllabus coming in your exams? Select No Clarity, if they provide it but don't explain the syllabus properly to you.

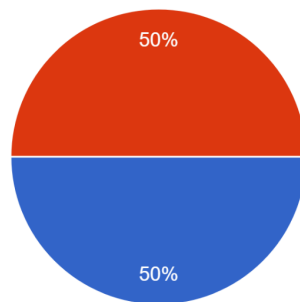

28 responses

Do you have easy access for past year exam papers of Internals & Externals both?

28 responses

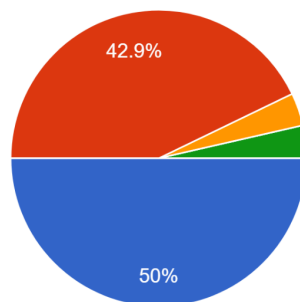

- Yes, I can easily find the past year exam papers for my course
- No, I find it difficult to get them in an organized way.

Did you ever miss any Event/Competition organized in your college or hosted in some other college

- Reason 1- Due to lack of information. Reason 2- ...ormation didn't reach on time. which reason is it?

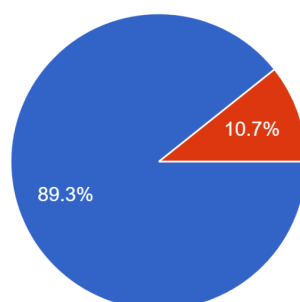

28 responses

- Reason 1
- Reason 2
- Didn't faced this kind of problem.
- This is first batch of this college so they don't have knowledge for organizing any event or competition. Also they have not any good teacher .

If all your problems related to Notes, syllabus, past year papers & college event Information is Solved by one website. Would you use it?

28 responses

- Definetly
- Not really

## **Team Requirements**

1. Content Writer- 60 words notice & gimmicky poster
2. Whatsapp Admin- Manage WhatsApp group
3. Tech ops- Website Maintenance
4. Toppers- Internal Exam Analysis
5. College Faculty- External Exam Analysis
6. Internware permanent event sponsors
7. Data Administrators- Notes & other stuff
